Subject: Standards

Commissioners --

Speaking as a member of the State Bar and a Criminal Jurisprudence and Practice Committee member, I cannot adequately express my admiration for your work to date. Having reviewed the four Standards that you recently proposed, and considering that they are aimed at encouraging counties to adopt compliance plans with the Standards as goals, I heartily endorse your thoughtful efforts. I cannot imagine how they could be done any better. I know that you have a lot left to do, but so far: great job.

Yours truly,
Sam Smith
